ABOUT US

Our Journey to Rotational Moulding Excellence

Established in 1998, our company started with a vision and a dedicated team. Today, we're pioneers in the industry, transforming product design and manufacturing.

Innovation-Driven Growth: Since the beginning, we saw the potential in rotational moulding. Our relentless pursuit of innovation has led to significant milestones and shaped our success.

Cutting-Edge Technology: We invest in state-of-the-art machinery, staying at the forefront of the industry. Our diverse product range caters to industrial and consumer needs.

Expert Team: Our skilled engineers and designers push boundaries, delivering groundbreaking solutions that exceed expectations.

Customer-Centric Approach: We prioritize customer satisfaction, understanding unique needs, and building lasting relationships based on trust and reliability.

Leading the Industry: We've set standards for innovation, quality, and environmental responsibility. Our commitment to excellence remains unwavering.

Join Our Journey: Explore our revolutionary products and collaborate with us to bring your ideas to life. Together, let's create a limitless world of innovation.

■ **Vision**

"To lead the future of rotational moulding through relentless innovation, sustainable practices, and unparalleled customer satisfaction."

■ **Mission**

"At our innovative rotational moulding company, we are committed to revolutionizing the industry by pushing the boundaries of what's possible. Through cutting-edge technology, eco-conscious practices, and a dedicated team, we strive to deliver high-quality, customized solutions that exceed our customers' expectations. Our mission is to create a greener world, one innovative product at a time, while fostering long-lasting partnerships with our clients and promoting a culture of excellence and sustainability within our organization."

CORE TEAM

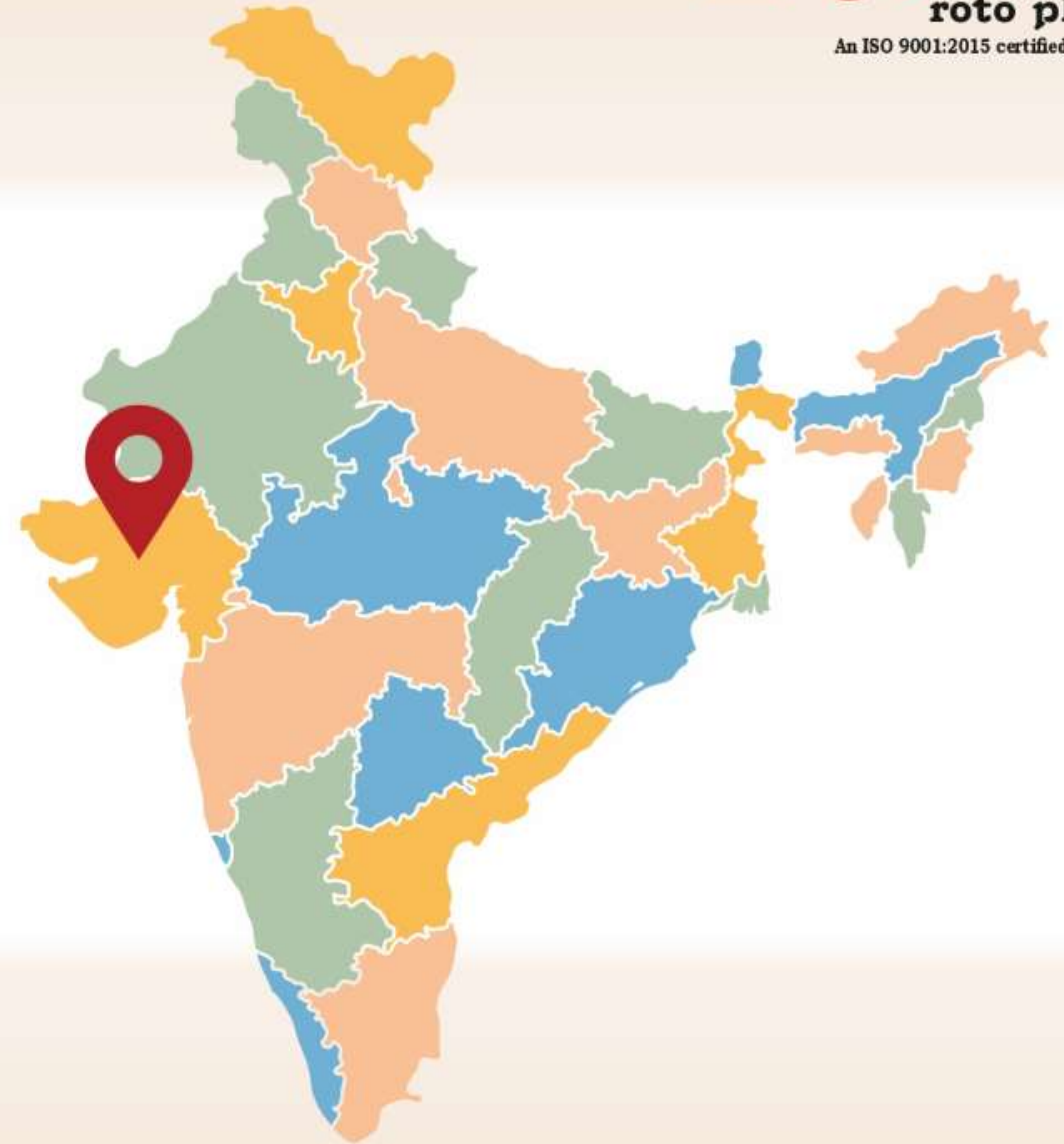

We have a dynamic team consisting of both seasoned professionals and enthusiastic, ambitious individuals who are committed to lifelong learning. This combination of experience and fresh perspectives enables us to thrive on innovation, driving our progress and growth.

As our team continues to expand and diversify, it is our shared values that unite us and guide our actions.

PLANT LOCATION, AHMEDABAD, GUJARAT - INDIA.

- Located in Ahmedabad which is the Rotational Molding Capital of India.
- Technology, Skilled Manpower easily available.
- Quick Development Time.
- Latest Machineries.

LOGISTICS

- India
 - Ahmedabad International Airport – 60 Minutes
 - Ahmedabad ICD-30 minutes
 - Nhava Sheeva Port – 12 hrs
 - Bhavanagar Port – 6 hrs
 - Kandla Port – 12 hrs
- Warehousing
- Location Close to Transport Area
 - JIT Delivery

MANUFACTURING FACILITY

» In house Mold Manufacturing Facility

Package Services :

- Injection Moulding
- Blow Moulding
- Pultrusion
- SMC
(Sheet Moulding Compound)
- FRP Moulding

Capabilities : Molding Processes

- Automatic Bi axial Rotational Molding Machines
- High Pressure Puff Filling Station
- Latest Pulverizing Plant
- High Speed Mixers

Composite Product Development :

- New Product Design
- Conceptual Designs
- Prototypes
- Reverse Engineering

Cold Chain Solutions :

- Ice Packs/Chill Pads
- Transport Freezers
- Eutectic Storage Freezers
- PCM (Phase Change Material)
- XPS Boxes, etc.
- Data Loggers

STATE OF THE ART FACILITY

OUR ACHIEVEMENTS

- Customer Driven
- Low Costs
 - » LOW Labor Costs
 - » Manufacturing Efficiencies
 - » Just In Time Delivery
- High Quality
 - » Continuous online Inspection
 - » Rigorous Batch Inspection
 - » Documented Processes

QUALITY ASSURANCE

- ISO 9001:2015 Certified
- GMP Quality Certified
- CE Certified
- Vigorous in Coming Inspection
- Process Controls
- Ice Melting Test
- Temperature Test
- Drop Test
- Antibacterial Test

Sir,

Sub: I.R.C.S. AP State Branch, Hyd. - Livelihood Projects - Supported by Spanish
Red Cross - Ice Boxes - M/s. Allwin Rotoplast - appreciation - Reg.

It is with deep appreciation, I put on record the exemplary performance
demonstrated by you and Team Allwin in satisfactory completion of the Project. Your level
of commitment and well coordinated efforts are appreciated by one and all. The ICE BOXES
are performing to our expectations.

We wish ALLWIN all the best in their future endeavours.

Yours faithfully,

Mohana Krishna G
State Project Coordinator
Livelihood Projects supported by Spanish Red Cross

OUR NETWORK

Case Studies

How we helped our Customers...

Especially designed FRP Ice Boxes for UN sponsored livelihood Project

Customers Objective:

Food & Agricultural Organisation of the United Nations wanted to execute a livelihood project to provide FRP Ice Boxes, duly inspected by the 3rd party agency, Baltic Control, for the fishermen in the war zone of Yemen, so that they can survive those harsh conditions.

Challenges:

To complete the mammoth task under specified time frame to avoid penalties.

To deliver 42, 40'HC Containers in a single dispatch.

Result:

**Successfully developed and deployed 1720
boxes different sizes in 4 months.**

In Association with

Pizza/Chapatis Never Tasted so Fresh

Customers Objective:

One of India's largest automated Chapati (Indian Bread) manufacturer wanted to delivery Chapatis from their Chennai facility to Bangalore IT Hub by 4 to 5 hour train travel.

Challenges:

Temperature Drop of 5%

Keep Freshness

No Soaking by steam condensed droplets

Result:

Successfully developed and more than thousand insulated carrying cases are in use

Deep Sea Fishing - A Deep Understanding

Customers Objective:

A leading Coastal Area Development Agency wanted their beneficiaries- Marine Fisher Man who venture out deep sea fishing to encourage fishing /marine export industry in India

Challenges:

To design and develop of large box- To be kept on Boat and on shore-With Chambers for fish variety segregation- Highly corrosive/Humid surroundings- Very rough handling- Least educated users- Long preservation needs

Result:

Allwin in collaboration with agency designed and developed boxes with Near tight/Wind Proof /Corrosion Proof/ withstanding very violent onward and return journey- Tested for 90+hours of preservation with least ice loss: Developed educational materials in vernacular language, developed systems for hand free lid stays etc.

Received and executed repeat project orders

Fisherman's Livelihood Project

Customers Objective:

Worlds largest NGO wanted to help out thousands of fisher mans families affected by Tsunami across the fishing hamlets on the coastal Andhra Pradesh

Challenges:

To develop preservation boxes for fish storing and retailing: To deliver such boxes to various stake holders across the coastal area of Andhra Pradesh

Result:

Successfully completed the project of supplying to 1220 marginal fisherman and obtained accreditation from International Agency

Indian Red Cross Society

Organic Milk- Fresh from the Farm

Customers Objective:

A cow milk farm started a concept to supply organic milk door to door with view to provide better health to society.

Challenges:

To design and develop an Insulated Box which can be fitted with 15 glass bottles of one liter capacity each.

To provide partition so that glass bottles do not shatter with each other.

To secure temperature loss and to preserve the freshness till last consumption.

Result:

Allwin, keeping in mind all the challenges, successfully developed a special model and fulfilled a requirement of more than 500 numbers. Boxes are currently helping customer to savor the taste of pure milk

Allwin Solutions => Your access points ready for the cold

Integrated Dairy Development Project (IDDP)

Customers Objective:

South India's largest dairy wanted to procure more than 3k boxes from a reputed brand who can fulfill their techno commercial conditions.

Challenges:

To supply 3k + boxes within 45 days

Temperature rise must not exceed 4 degree C in 24 hours.

Minimum Price in Industry

Developing a small vending lid on bigger boxes

Result:

Team Allwin took on all the challenges and supplied during time limit.. Needless to mention, Customer is more than happy.

Large Palletized Deck For Diaper Roll Handling For Fitesa Pune Pvt Ltd

Fitesa is a leader in the nonwoven fabrics industry, specializing in providing innovative fabrics for the hygiene, medical and industrial markets.

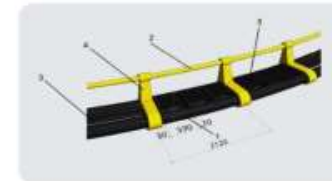

They demanded a specially made deck for handling their most hygienically sensitive non-woven fabrics for using it in diapers. The large deck with pallet handling was developed and supplied by Allwin.

fitesa

HDPE Pens with Rotomoulded Brackets For IMMID

1. Floating pipes made of high quality high density polyethylene (HDPE) at our plant “IMMID”
2. Yellow colour handrail is mounted at a height of 1 meter from the deck. It is clearly visible and provides safety for a fish farmer.
3. Two medium diameter pipes allow fish farmer to step on it.
4. Strong high buoyancy rotomoulded brackets produced by our partner in India “**Allwin Roto Plast**” provide endurance to the entire structure.
5. Plastic walkway decking produced by our plant “IMMID” can be optionally installed to provide extra comfortable movement on the structure.

Innovative Rotomolded Mist Fan Stand

One of our valued customers wanted a complex designed stand WITH BUILT IN WATER STORAGE CHAMBER for mist fans They wanted it with inserts for mounting the mist fan and its covers. Wanted an absolutely corrosion free structure to withstand continuous moist. Hundreds of such fans are in operation in most parts of northern India.

International Quality Vending Cooler Boxes For Coca-Cola

One of the Co-Cola vendors from SA approached us to develop a superior quality Cooler Boxes.

The boxes with Weather shade umbrella holder, bottle opener, and bottle racks with superior insulation was developed by **Allwin**.

Co-Cola logo displayed only to show the intended application of the box.

-No direct contract with the brand.

Coca-Cola

Food And Agricultural Organization FSRRP

Ona program where the Food and Agriculture Organization (FAO) of the United Nations supplied large fish boxes to fishermen beneficiaries. This initiative and project was aimed at supporting fisheries and the livelihoods of fishermen worldwide especially Yemen

The provision of large fish boxes to fishermen could be part of a broader effort to improve post-harvest handling and storage of fish. Such assistance can help fishermen preserve the quality and freshness of their catch, reduce post-harvest losses, and ultimately increase their income.

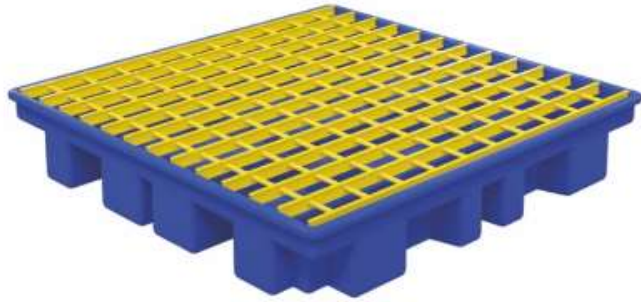

Iceboxes for installation on small fishing boats for the carrying of ice and fish, made of fiber reinforced plastic (FRP) and insulated with polyurethane foam. Capacity: at least 370 liters capacity, to keep at least 300/320 kg of ice/fish mixture. Challenge: External length of iceboxes should not exceed 1250 mm and the final weight of the empty boxes should not be more than 45 Kg. To be supplied in large quantities at various beneficiary countries.

Technical Data Sheet

– 310 Litres Insulated Fish Tub

Make: ALLWIN! (Made in India)

Product Code: ARP 310 S

Raw Material: UV stabilized Food grade Virgin Polyethylene

Technology: Rotational Moulding

Skin Layer Thickness: (7 +/- 1) mm

Insulation: Polyurethane Foam having Density of (42+/-2) Kg/m³

Inner Dimensions: Length 865 mm, Width 660 mm & Height 570 mm
(without Lid)

Outer Dimensions: Length 915 mm, Width 710 mm & Height 710 mm
(without Lid)

Capacity: 310 Litres

Thickness: 25 mm

Lid: Supporting with the Tub

Colour: Beige (Sea Sand), Other Colours on Bulk Order

Facilities: Drain, Inbuilt Handles, Fork Lift, Stacking, Rubber Belts

Packing: Stretch Film Wrapping for Climate Resistance

Customer Logo: on Bulk Order Additional Facility of Screen Printing

Technical Data Sheet

– 660 Litres Insulated Fish Tub

Product Code: ARP 660 P

Raw Material: UV stabilized Food grade Virgin Polyethylene

Technology: Rotational Moulding

Skin Layer Thickness: (7 +/- 1) mm

Insulation: Polyurethane Foam having Density of (42+/-2) Kg/m³

Inner Dimensions: Length 1166 mm, Width 961 mm & Height 580 mm
(without Lid)

Outer Dimensions: Length 1230 mm, Width 1025 mm & Height 755 mm
(without Lid)

Capacity: 660 Litres

Thickness: 32 mm

Lid: Supporting with the Tub / Wending Lid also Available on Demand

Colour: Beige (Sea Sand), Other Colours on Bulk Order

Facilities: Drain, Inbuilt Handles, Fork Lift, Stacking, Rubber Belts

Packing: Stretch Film Wrapping for Climate Resistance

Customer Logo: on Bulk Order Additional Facility of Screen Printing

Partition: Available on Demand

Revolutionize Logistics with Tech-Driven Pallets

CHILL/FREEZING PADS

Allwin[®]
roto plast
An ISO 9001:2015 certified company

FREEZE YOUR WORRIES AWAY

UNVEILING ULTIMATE CHILL WITH ALLWIN CHILL /FREEZING PADS

- Made from Food Grade Material
- Can substitute for Dry Ice/Ice Cubes/Salt
- Special Rib Design for extra Strength
- Suitable for Insulated Boxes & Crates

Using freezing pads for the transportation of perishable products is a common practice to maintain their temperature and quality during transit. Freezing pads, also known as gel packs or ice packs, are designed to absorb heat and keep the contents cool. You can effectively use freezing pads for transporting perishable products.

INSULATED TUBS | ICE BOX | PALLETS | SPILL PALLETS | DOFF BASKET | MILK CAN
SAFEBIN | CHILLING PAD | PALLET CONTAINER | PROCESSING TROLLEY

PORTABLE MOBILE TOILET

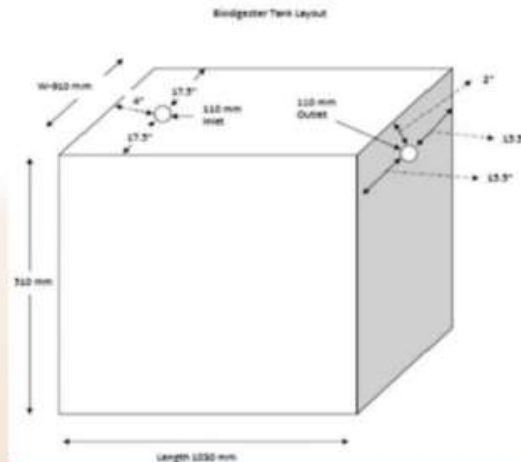

- » Ready to use design – Can be installed by unskilled person anywhere in the country.
- » Made with UV Grade superior grade plastic to protect from direct sunlight.
- » Easy to Handle and relocate, in built in handle Maintenance Free.
- » Light Weight, Durable, customized with Bio digester for Fishing boats other attachments optional as per requirement.
- » Ready to use mobile toilet shall be suitable to be mounted to a fishing boat.

Maximum External Dimensions of the Bio Toilet with Digester:
1045 mm (L) x 995 mm (W) x 2595 mm (H) (+ or -5% Of the nominal dimensions)

Toilet Bio- Digester:

- » Bio-Digester comprises mainly 3 compartments. Made out from FRP with required fabrication.
 - i. Anaerobic microbial Consortium which is formulated from a group of Bateria that are very efficient to perform the Bio genetion of the human waste in wide range of temperature and in presence of toxic chemicals
 - ii. The vessel in which fermentation is carried out with the help of bacteria is called bio digester.
 - iii. Clean water receiver.
